Queensland Hydro Pty Ltd is an entity established by the Queensland Government and is wholly owned by Queensland Treasury. The entity's financial statements are prepared in compliance with the *Corporations Act 2001*. The results of our audit of its financial statements will be included in the state entities 2023 report.

## Accountability requirements

The *Government Owned Corporations Act 1993* establishes 4 key principles for government owned corporations:

- clarity of objectives
- management autonomy and authority
- strict accountability for performance
- competitive neutrality (meaning they should not have a competitive advantage over the private sector because they are owned by the government).

## Queensland state government financial statements

---

Each year, Queensland state public sector entities must table their audited financial statements in parliament.

These financial statements are used by a broad range of parties, including parliamentarians, taxpayers, employees, and users of government services. For these statements to be useful, the information reported must be relevant and accurate.

The Auditor-General's audit opinion on these entities' financial statements assures users that the statements are accurate and in accordance with relevant legislative requirements.

We express an *unmodified opinion* when the financial statements are prepared in accordance with the relevant legislative requirements and Australian accounting standards. We *modify* our audit opinion when financial statements do not comply with the relevant legislative requirements and Australian accounting standards and are not accurate and reliable.

There are 3 types of modified opinions:

- a qualified opinion – the financial statements as a whole comply with relevant accounting standards and legislative requirements, with the exceptions noted in the opinion
- an adverse opinion – the financial statements as a whole do not comply with relevant accounting standards and legislative requirements
- a disclaimer of opinion – the auditor is unable to express an opinion as to whether the financial statements comply with relevant accounting standards and legislative requirements.

Sometimes we include an *emphasis of matter* in our audit reports to highlight an issue that will help users better understand the financial statements. It does not change the audit opinion.
